## POSTAL SERVICE REPAIR FORM

### IMPORTANT INFORMATION

We urge you to provide details of (or remove) any passcodes/password securing the devices sent. This is to ensure we can fully test all device functions before and after repair. If these details are not provided the screen repair can still be carried out, but we will not be liable for identifying any other faults on the device. In this case, the screen fitted will be fully tested on one of our own motherboards beforehand.

We aim to provide a full diagnosis of any devices sent to us before repair. If this is not possible, such as in the case of a damaged LCD screen, we will carry out the requested repair and ensure the device is fully tested before shipment (providing you have supplied us with a passcode). If we identify any additional faults not noted below we will alert you and provide you with a quote if repairs possible.

By submitting this form you confirm that you have read and accepted the **terms and conditions** listed on our website.

Your Details (required)		Date (required)	
Name:	Delivery Address:		
		Contact Details (required)	
		Email:	
		Telephone:	
Payment Method (mark preferred option)		BACS / PayPal / Cash on Collection	

### DEVICE INFORMATION

Model	Colour	Passcode	IMEI	Description of Fault

Additional Notes

### SHIPPING DETAILS

Please ship your order to the provided address using a fully tracked and signed delivery method of your choosing. We recommend using Royal Mail's 'Special Delivery' service.
